

SurjyoPath

The Sun's Way

A Personal Knowledge Universe

The Problem

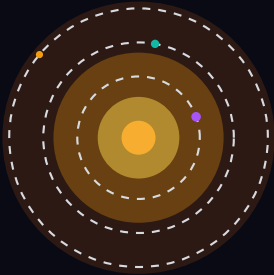

Information Overload

Every day we generate thoughts, ideas, goals, and notes — scattered across apps, notebooks, and memory.

- **Lost Ideas** — Great thoughts come and go without capture
- **No Reflection** — Journaling feels tedious, not magical
- **Fragmented Learning** — Goals, notes, and resources live in silos
- **Missing Connection** — No unified space for growth

"I have ideas everywhere, but nowhere to bring them together."

Your ideas orbit around *you*.

Like a solar system, each of your ideas — journals, goals, publications, connections — becomes a celestial body orbiting your personal sun.

You are the center of your knowledge universe.

Key Features

Journal

Daily diary with AI-powered thought categorization and reflection prompts

Goals

Set goals with auto-generated learning roadmaps and progress tracking

Library

Save articles, notes, and resources in a personal knowledge base

Publications

Write and publish your thoughts — turn notes into articles

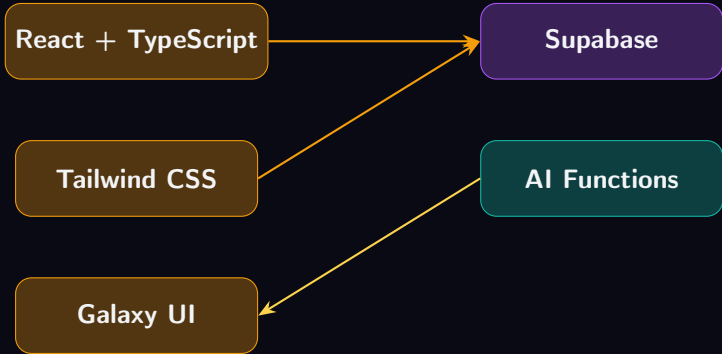

Friends

Connect with peers, share goals, and grow together

Galaxy Navigation

A stunning solar-system UI to navigate everything

How It Works

Frontend

React, TypeScript, Tailwind v4,
Vite

Backend

Supabase Auth, Postgres, Realtime

AI

Edge Functions, Thought Analysis,
Auto-courses

Technology Stack

Frontend	React 18, TypeScript, Vite, Tailwind CSS v4
State	Zustand stores (auth, goals, journal, friends, library, etc.)
Backend	Supabase (Auth, Postgres, Realtime, Storage)
API	Supabase Edge Functions (Deno)
AI	AI-powered thought categorization, learning roadmaps
UI/UX	Galaxy-themed navigation, dark/light modes, responsive
Deploy	Vite build, Supabase hosting

Why This Stack?

Lightning-fast dev with Vite + React, scalable backend with Supabase (no server management), and AI integration via serverless Edge Functions. All TypeScript — one language from frontend to backend.

Design Philosophy

Galaxy Metaphor

Every feature is a planet orbiting your personal sun. Navigation becomes exploration — intuitive, delightful, memorable.

Dreamy Animations

Starburst entrances, pulsing corona glows, slow orbit rotations. Every micro-interaction feels alive.

Light & Dark

Warm amber-gold sun tones on deep space backgrounds — with a light mode for daytime use. Accessibility-first.

Empty States with Soul

No blank spaces — every empty state guides the user with personality.

Impact & Roadmap

Who It Helps

- Lifelong learners
- Writers and thinkers
- Goal-oriented individuals
- Anyone overwhelmed by information

Future Roadmap

- ▶ Mobile app (React Native)
- ▶ Collaborative goal rooms
- ▶ AI thought summaries & insights
- ▶ Public publication marketplace
- ▶ Offline-first with PWA

Long-term Vision

SurjyoPath aims to be the **personal operating system for your mind** — the one place where all your thoughts, goals, and knowledge live, connect, and grow.
